PROFESSIONAL SUMMARY

Motivated fresher with hands-on knowledge of **HTML5, CSS3, JavaScript and React JS**, seeking an entry-level Frontend / Web Developer role. Built API-driven web applications, including **VocaTube**, a voice-controlled YouTube platform, and a **Movie API web app**, using REST APIs, JSON and browser Local Storage. Comfortable with Git and GitHub for version control, a quick learner with strong problem-solving skills, and eager to contribute to a professional team while growing as a developer.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React JS
APIs & Data	REST API, Fetch API, YouTube API, JSON
Tools	Git, GitHub, VS Code
Web Concepts	DOM Manipulation, JSON Handling, Local Storage (client-side data persistence)

PROJECTS

VocaTube – Voice-Controlled YouTube Platform

Tech: React JS, JavaScript, YouTube API, HTML, CSS

- Developed a React JS web application that lets users **search YouTube videos using voice-based interaction**, with video results fetched through the YouTube API.
- Implemented user-focused features: **History, Favorites, Notes and Focus Mode** for a more organised, distraction-free viewing experience.
- Used browser **Local Storage** to save user data such as history, favorites and notes so it stays available between sessions.
- Worked with API requests and JSON responses, and styled the interface with HTML and CSS.

Movie API Web Application

Tech: HTML, CSS, JavaScript, REST API

- Built a web application that **fetches movie information from a REST API** and displays it dynamically on the page.
- Used the Fetch API and JavaScript to handle **JSON data** and update the page content dynamically.
- Structured the page with HTML and styled it with CSS for a clean, readable layout.
